EDUCATION

2024 - 2027

University of Derby - Mediterranean College

BSc (Hons) Cyber Security

FOREIGN LANGUAGES

English → C2, University of Michigan

German → C1, Goethe-Universität

Italian → B2, Istituto Italiano di Cultura

Spanish → B2, КПГ

PERSONAL SKILLS

- Critical Thinking & Analysis
- Adaptability
- Organization & Documentation
- Initiative
- Collaboration & Communication
- Continuous Learning

PERSONAL INTERESTS

- Foreign Languages
- Strength Training
- Muay Thai
- Philosophy & Computing

SUMMARY

After a decade as an independent Game Developer with hands-on experience in software design and delivery, I have transitioned into Cyber Security and Cloud Governance, applying my technical background to secure coding and systems protection, while deepening my expertise through industry-standard seminars.

PROFESSIONAL EXPERIENCE

present	Orfeas Game Studio
-	Founder & Lead Developer
2015	Eight commercially released PC titles built in JavaScript with pixi.js, distributed through Steam, BMTMicro and Aldorlea Games. Sole owner responsible for software implementation, game design and development, project milestone delivery, and technical documentation. Provided external consulting to fellow game designers across the indie scene.
2018	Additional Roles
-	Hospitality (Front Office, CFOP), private language tutoring (English & German), and KPG (КПГ) state language certification exam supervision.
2008	

SEMINARS & CERTIFICATIONS

2026	Microsoft Virtual Training, Microsoft Introduction to Microsoft Security, Strengthen Cloud Security with Microsoft Defender for Cloud Focus: Security, Compliance and Identity using Microsoft Azure
2026	Microsoft Security Analyst Professional Certificate, Coursera Cloud governance and security by Microsoft.
2025	Skills: Cloud Security, Azure Active Directory, Access Control (RBAC), Azure Security Tools (Defender, Sentinel, Bastion)
2026	IBM Java Developer Professional Certificate, Coursera Comprehensive training in Java development.
2025	Skills: Java, Gradle, Spring Boot, CI/CD, Web Development, GitHub, Full Stack Development, Secure File Handling, Microservices
2025	C# Fundamentals in .NET Environment, Microsoft Learn Object-oriented programming with C#. Certification: Microsoft, via FreeCodeCamp
2024	Google Cybersecurity Professional Certificate, Coursera Foundational training in cybersecurity principles by Google. Skills: SIEM (Splunk), Automation (Python), SQL Sanitization, Virtualization
2023	Web Development Specialist, New York College 200-hour seminar in HTML, CSS, JavaScript and PHP web development. Certification: GlobalCert
2022	Java & Java for Android, Datalabs LLC (K&BM) 54-hour seminar in object-oriented programming with Java.

PROJECTS

LinkVault : Zero-knowledge encrypted link dashboard (AES-256-GCM, PHP/MySQL)

SigilVault : Secure URL shortener with optional PIN, cookieless & trackless

HashVault : C# WinForms application for file hashing and logging

HashWatch : Python CLI file integrity monitor with JSON baseline

MoodTracker : Mood logging app | Enhanced IBM Java Guided Lab Exercise
